### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process as claimed in which at least a portion of the first vapor stream and a second feedstock comprising diesel boiling range hydrocarbons are passed to a second denitrification and desulfurization reaction zone to produce a second liquid stream.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art not relied upon discloses hydrotreating processes.
